

LANE CADELL

Ripon, CA | (209) 275-4991 | LaneDanielCadell@gmail.com | linkedin.com/in/lanecadell

PROFESSIONAL SUMMARY

Senior data leader with 6+ years driving business impact at high-growth tech companies. Track record of delivering \$50MM+ in value by architecting production ML models, influencing C-suite strategy, and leading cross-functional initiatives. Expert in translating complex technical solutions into executive-level business recommendations.

PROFESSIONAL EXPERIENCE

Opendoor Technologies Inc. — San Francisco, CA

Senior Data Scientist

February 2026 – Present

- Deployed a dual-pathway risk detection pipeline – LLM-based feature extraction feeding a LightGBM scorer, paired with a RAG system for flagging and explaining severe disclosure issues – achieving a 1.97x lift in identifying high-risk acquisitions.
- Lead technical strategy for FP&A data model optimization, partnering with C-suite and VP-level stakeholders to shape product roadmap and drive company-wide data science standards across a 10+ person cross-functional team.

Data Scientist III

November 2024 – February 2026

- Developed ML models (XGBoost/LightGBM) reducing repair estimation error by 18%, partnering with Engineering to integrate into production systems and delivering \$890 per-home margin improvement at scale.
- Transformed outbound offer program strategy by redesigning KPIs and implementing risk guardrails, collaborating with VP-level Product and Operations leadership to grow annual contracts by \$40MM.

Strategy and Analytics Associate

February 2023 – November 2024

- Designed pricing strategies, operator tools, and BI dashboards (Quicksight/Mode) for market expansion initiatives, increasing total addressable market by \$41B through data-driven geographic and segment analysis.
- Optimized ensemble model architecture, reducing pricing MAE by 11bps and generating \$2.5MM in annual margin through model stacking and routing optimization techniques.
- Identified \$3.2MM in cost savings mailer pipeline optimization analysis, excluding ineligible homes from marketing campaigns.

Analyst III, Pricing

February 2022 – February 2023

- Led market entry analytics for Richmond, Charleston, Detroit, and Albuquerque, expanding TAM by \$28.8B through competitive analysis, buy-box optimization, and profitability modeling.
- Conducted risk analysis, identifying ~\$760K in annual savings through insurance policy optimization recommendations.

Analyst II, Pricing

June 2021 – February 2022

- Leveraged demand and market analysis to deliver \$23.4MM in margin through high-accuracy acquisition pricing on 5,000+ homes.

Uber Technologies Inc. — Phoenix, AZ

Risk and Compliance Specialist II

August 2020 – June 2021

- Built production-grade Tableau dashboard with automated alerting to monitor Risk Ops SLAs, enabling proactive issue resolution.
- Automated Incident Response Team workflow using SQL and statistical analysis, reducing audit processing time by ~50%.
- Conducted comprehensive audits and reviews to identify potential risks and compliance gaps within the company.

Nationwide Mutual Insurance Company — Scottsdale, AZ

Financial Services Representative

February 2020 – August 2020

- Managed 403(b) participant relationships and executed transactions in compliance with AML policy and regulations.

B&L Neeley Inc., Hawksley Laboratories, Process Solutions — Ripon, CA

Business Operations Specialist

June 2019 – February 2020

- Oversaw DOT compliance for shipping containers, minimizing operational risk through systematic monitoring and improvement.
- Provided premium chemical, equipment, lab, and engineering services to 8 multimillion-dollar accounts.

EDUCATION

University of California, Santa Barbara — Santa Barbara, CA

Bachelor of Arts in Economics

September 2015 – June 2019

TECHNICAL SKILLS & INTERESTS

Programming: SQL (CTEs, window functions, tuning), Python (NumPy, Pandas, Scikit-learn, LightGBM, XGBoost, Matplotlib, LangChain)

Techniques: A/B Testing, Diff-in-Diff, Ensemble Methods, Regression Analysis (Linear, Logistic, Polynomial), Time-Series, Monte Carlo

Platforms & Tools: Databricks, Snowflake, AWS Quick, Mode Analytics, Tableau

Interests: Golf (Scratch), Audiobooks, Podcasts, Reading
